

School-based Decision Making (SBDM) Council Trainers for 2015

(Updated 04-02-2015)

The School-based Decision Making Statute (KRS 160.345) requires all school council members to have annual training in the implementation of school-based decision making (SBDM). To effectively provide all Kentucky schools with high-quality professional development activities, the Department of Education (KDE) has trained district SBDM Coordinators and various external providers in the policies and procedures for effective implementation of SBDM. The training is monitored by the Department of Education for quality and accuracy.

KRS 160.345(6) The Department of Education shall provide professional development activities to assist schools in implementing school-based decision-making. **School council members elected for the first time shall complete a minimum of six (6) clock hours of training in the process of school based decision making, no later than thirty (30) days after the beginning of the service year for which they are elected to serve. School council members who have served on a school council at least one (1) year shall complete a minimum of three (3) clock hours of training in the process of school-based decision making no later than one hundred twenty (120) days after the beginning of the service year for which they are elected to serve.** School council member training required under this subsection shall be conducted **by trainers endorsed by the Department of Education**, and school council members shall complete the required training no later than thirty (30) days after the beginning of the service year for which they are elected to serve. By November 1 of each year, the principal, through the local superintendent, shall forward to the Department of Education the names and addresses of each council member and verify that the required training has been completed. School council members elected during a school year to fill a vacancy shall complete the applicable training within thirty (30) days of their election.
